“The Edina Education Fund’s financial support plays a key role in advancing our District’s vision. The funds allow us to implement new initiatives during these financially-challenging times for public funding. The partnership support helps to create a culture of innovation and possibilities for our staff and students.”

– Ric Dressen, Superintendent of Edina Public Schools

Every family? Imagine the possibilities....

Each year the Edina Education Fund provides financial resources that impact every student, at every grade level, across all schools in the district. We welcome your family to join us in advancing excellence in the Edina Public Schools. Last year, 12% of the 4,779 households with kids enrolled in the district supported the Edina Education Fund.

Imagine what we could do if every family joined us.

No matter what level of giving is right for your family this year, your participation can make a significant impact. With your help we can continue to support key efforts like expanding technology in the elementary schools, introducing innovative curriculum such as the Project Lead the Way courses in the middle schools, and expanding the Writing Center at Edina High School.

In 1995, the Edina Education Fund was created based on the belief that a community committed to public education can make anything possible. We know that tax dollars alone do not support the high caliber of schools we all expect in Edina. That’s why we collaborate broadly and leverage resources, aiming dollars at areas that most impact our students. At each educational level, from the basics to the visionary, the Edina Education Fund provides funds to nurture tomorrow’s world citizens and leaders.

Pictured in this brochure are teachers and students receiving their Innovation Grant Awards in February, 2010. Last year \$52,000 was awarded for projects impacting pre-school age through high school. These grants were in diverse areas, from literacy to visual arts, from technology to music, and more. Every year grant requests exceed our available funds. Your help will allow us to provide more awards for deserving innovative educational ideas.
